TECHNICAL SKILLS: React, JavaScript, HTML5, CSS3, Redux, Ruby, Rails, AWS S3, Google Maps API, Git, Webpack, Babel, NPM, Heroku, AJAX, jQuery, JBuilder, PostgreSQL, ASP.NET, C#, Oracle, SQL-Server, PL/SQL, SQL, COBOL, RSpec

PROJECTS:

Hangout *React, Redux, JavaScript, Ruby on Rails, PostgreSQL*

[live](#) | [github](#)

Single page application that mirrors the functionality of Meetup.com and promotes DRY, reusable and maintainable code

- Incorporated AWS S3 services for media storage to reduce load time and improve scalability
- Constructed search functionality, using event listeners, AJAX requests and parsed JSON to minimize server calls and query the database across multiple search categories, allowing users to easily locate groups
- Implemented Google Maps API, allowing users to choose from Google's predefined GPS locations and display the map with the address on the events page so user's can easily find the event destination
- Leveraged React component state and the Redux store to persist data across the application and pass the filter criteria based on user input of the react-calendar library, displaying events on the date selected
- Embedded airBnB's single-date-picker instance, an easy to read calendar tool, to allow users to create events for a period of a day or over a span of weeks
- Architected a RESTful API and specified custom logic utilizing switch statements that identify both the page and user type, and update the navigation bar accordingly, to optimize UI/UX experience

Css Demo *CSS and JavaScript*

[live](#) | [github](#)

CSS animation project that is card and 3D cube themed effects include onclick events and moving images

- Designed CSS Animations using keyframes, perspective, transform and translate CSS attributes that the user may watch or interact with on command
- Applied event listeners on DOM objects to respond to user input and increase user interaction
- Incorporated hover effects and transitions, dynamically changing background colors and applied z-index features to provide a visual representation of a variety of CSS properties

EXPERIENCE:

Software Developer *ASP.Net, C#, ASP, HTML, CSS, SQL, XML, MS SQL Server*

May 2011 - Dec 2012

Avanade (Accenture Partner): -- Stanford Hospital, supported APS.Net apps; CalNOC, PRISM, MyHealth, Epic Web

- Worked directly with doctors and nurses to develop a new application that replaced an antiquated manual data entry process for a .Net based web app that allowed for immediate data entry and provides reports used both internally and for a 3rd party state regulation agency
- Modified application to allow patients to schedule online appointments or other medical services remotely
- Organized technical implementation of 6 releases that included cross team resources

Software Developer *PL/SQL, ASP.NET, C#, ASP, Oracle, MS SQL Server*

Jan 2006 - Apr 2011

Accenture -- Supervised U.S. DOI's Royalty in Kind (RIK) division, attained "Position of Trust" U.S. gov clearance

- Coordinated 8 successful releases as team lead and oversaw the RIK invoicing process during my tenure for the RIK bi-monthly batch process that accounted for \$13.4 million
- Reverse engineered methods and classes developed by former team members to resolve critical path issues
- Converted the Profiles app, (ASP Classic) to an N-tier model ASP.Net web app

Lead Conversion Specialist *DTS, MS SQL Server, VBScript, COBOL, JCL*

Jan 2003 - Jan 2006

Accenture -- Project team began with 5 members by the end I was individually running the entire 11 day conversion

- Extracted 21 years of data from an IBM Z/OS VSAM mainframe and loaded into a SQL Server 2000 database
- Lead design sessions with clients regarding critical path decisions to ensure project stays on schedule
- Completed 18 conversions, loaded 60 million records with a 0% error count meeting all deadlines
- Resolved over 300 logged conversion issues
- Reduced conversion time required by 25% by reviewing processes and increasing SQL Server DTS efficiencies

EDUCATION:

AppAcademy - Bootcamp, 1000-hour curriculum on React, Redux, Rails, & JavaScript and < 3% acceptance rate

2019

University of Colorado at Boulder - BS Information Systems

2002
